Testimonials

“THANK YOU FROM THE BOTTOM OF MY HEART”

Sarah’s attention to the day, capturing the key details along with the emotions and feelings of our wedding day and guests was fantastic. She fitted in with the guests, making them feel comfortable and at ease.

When we received our wedding day video, me and my husband were able to relive the best day of our lives all over again. Her design and presentation of the video was incredible and I am so grateful we had her for our wedding!

In my head from following Sarah, I thought I knew what I was in for, god was I wrong! It was so much more than I imagined!! I cried from the second it started, she captured things I forgot about, and she captured parts that were so important to me, all as a ninja!

You’ll never know how happy you have made me Sarah, a bride that was dreading the wedding blues, you’ve cured it in that 9 minutes of happiness and magic that I’ll treasure & keep forever. Just wow! Thank you from the bottom of my heart

QUESTIONS & ANSWERS

Where are you based? Sheffield, South Yorkshire, UK, but I travel all over the UK and do destination weddings.

Can we meet before the big day? Absolutely! If you are local I'd love to meet you. If not, we can chat via Skype/Facetime/phone call to get to know each other before the wedding. If your wedding is destination I always encourage a meeting the day before your wedding.

When will I receive my videos? I think about every aspect of your video from concept to completion, they do take a little longer to edit than photos so I say to allow up to 12 weeks for delivery. It will be worth the wait!

So you do photo and video, do you offer ONE or the other on each wedding or can you do BOTH? I can do both! If you opt for photo AND video with me this means you will get two shooters on your day. Myself and my videographer. In this case I will be in charge of the photos and they will do the video, shooting in the same style as the videos on my website. After the wedding, I will edit both your photos and your video. Discounts apply if you choose photo and video with me. If you choose just ONE or the other, I will be your solo shooter for your photography or videography needs.

Have you ever cancelled a booking or not shown up to a wedding? Never!! A wedding is a once in a lifetime event and I take it incredibly seriously. If for some reason I was so ill, or circumstances were so dire that I could not possibly film your wedding, I have a backup plan. You would never be left without a videographer.

How do you choose music for our wedding video?

Due to restrictions with music copyright laws, we can only use music which allows us to purchase a music usage licence, giving us permission to use the music on our videos, this fee is already included in your package. It is very rare you would be able to get licences for chart music, as to get licences for songs by mainstream artists, this would cost thousands! We use the music licence library [musicbed.com](https://www.musicbed.com) when selecting our music for all our videos. We are unable to use music we cannot get a licence for, as this would be breaking copyright law. As you will have seen on the video examples, great care and attention is taken to choose music that creates the correct feeling/vibe of your day, and better yet this means your wedding video will never date as it would with a mainstream track!

Finally...

READY TO BOOK ME?

Here's how to secure your date:

1. Send me an email to confirm if your date is still available.
2. If I am available, I will email you a booking fee invoice and the wedding contract to sign.
3. Pay your £500 booking fee
4. I will email you a receipt and new client guide

Simple as that! Now sit back, relax, and get excited about what is to come!
